MACKEVISION

What benefit does F_BOX picture shooter offer?

- > **simple**
 - > intuitive and user-friendly without any prior 3D knowledge
 - > no software installation required
- > **creative**
 - > unlimited possibilities due to real 3D work
 - > full layer access for subsequent processing
 - > custom content can be uploaded
- > **fast**
 - > 3D real-time preview and additional background rendering
 - > Services are available immediately - No installation and handling time
- > **inexpensive**
 - > underbids all current 3D processes in the price-performance ratio
- > **secure**
 - > server-based, with user-specific access and secure data transfer
- > **flexible**
 - > usable anywhere
 - > enables all users to cooperate collaboratively on the Web
- > **high-quality**
 - > Mackevision's 15 years of 3D experience are available for each user in a single mouse-click --- high quality guaranteed

MACKE**VISION**

About MACKE**VISION**

Mackevision is a premium creative system partner for image communication. As experts in 3D visualization, animation, post production and visual effects, we design and produce high quality images and film footage. Mackevision also develops independent image production solutions for international agencies, film productions and industrial clients in the automotive, architectural, pharmaceutical and consumer product industries.

From data preparation through creative design, implementation of projects and production, we provide all computer-aided processes for 3D visualization and film production.

Our core expertise lies in the creation of visualizations of the highest quality for all media. For years, our work has earned the highest honors in the most prestigious national and international industry competitions.

Mackevision's development department has introduced the F_BOX product family. With our F_BOX product family industrial customers, photographers and agencies can configure high-quality 3D visualizations for marketing and information materials, based on edited product data, easily and economically.
